Product Description

SLE42s Electric Stove

Introducing Capital's latest innovative range of highly efficient, authentic and stylish electric fires. The focus of your living space, the SLE42s features our etronic 3D effect technology for an ultra realistic, relaxing flame pattern and dimensional, glowing log fuel bed – cleverly tapered to give the illusion of a deeper fire.

This luxury cylindrical electric stove features side windows with a 900-1800w heat output. It can be placed anywhere in the home without the need for a chimney and requires very minimal installation.

Supplied with an infrared remote control as standard, the SLE42s has been designed and manufactured with optimal controllability, enabling you to turn the fire on and off from the comfort of your armchair, set the desired temperature and adjust the brightness of the flames and fuel bed to suit your mood. For efficient and automatic control, it also feature a 7 day programmer.
