Product Description

The Artsia wall fire offers a fantastic array of coloured visuals in a beautiful black glass wall fire. Easily controlled by the remote control, you also experience a range of coloured flame and smoke effects alongside the brilliantly concealed 2kW electric fan heater.

The thermostatic controls mean you can set your fire to produce heat when the room drops to a certain temperature, helping to maintain comfort in your home. The curved black frame is hung on the wall, providing a sense of depth thanks to the various coloured backlighting settings.

A visual focal point for any contemporary space, the optimisation of multiple flame colours offers incredible customisation for a fantastic price. The Artsia is a beautiful electric wall fire filled with features you'll love.
