Element4 Bidore 100

Element4

RRP from £4660 (Contact us for our discounted price)

Product Description

This 2 sided gas fire is ideally suited for installation into a corner of the room. You can have the glass return on either the left or right hand side, dependant on your room layout and personal requirements.

This fire will need to be installed into a false chimney breast, also known as a firewall, made from 1000 degree rated materials. The construction of this wall is a specialist task and should not be carried out by an inexperienced gas engineer.

We offer a full design service and can build your vision from start to finish.

Interior options include Flat Steel or Black Glass Linings
