Faber Jelling

Faber

RRP £2370 (Contact us for our discounted price)

Product Description

Jelling

A freestanding fireplace is -often literally- the centrepiece of the room. Needless to say, you then expect the best in every respect. Our Jelling freestanding gas fire comes in robust black sheet steel. The sheet steel and large glass panel give this gas fire a tough appearance. This Faber fireplace features the Faber Emberbed Burner®. The Faber Emberbed Burner provides a compact but sparkling fire. You can optionally combine the flames with reclining decorative wood logs on a bed of ash and amber stones, which enhance the sparkle of the flames, or, alternatively, with white Carrara pebbles. Faber fireplaces are easy to operate and feature state-of-the-art technology.

☒ A freestanding gas fireplace with a simple sleek steel design at a good price.

☒ Also suitable for use on (bio-)propane.

☒ Includes convenient day timer and thermostat function.

☒ Control via supplied luxury Faber remote control.
