

Gazco Logic Convector
Gazco

RRP from £935 (Contact us for our discounted price)

Product Description

The Logic™ Convector is an efficient open inset gas fire suitable for all chimney types. It incorporates a convection system that provides additional heat and efficiency to that of the Hotbox.

The convector box draws cool room air into the bottom of the convection chamber. The cool air is warmed as it passes over the hot surfaces of the chamber and the hot air is then emitted back into the room via the top convection slot.
