

GAZCO

Gazco Riva2 500HL Slimline

Gazco

RRP from £3595 (Contact us for our discounted price)

Product Description

Hand painted, realistic logs lend the Riva2 500HL Slimline the natural ambience of a real wood fire. Tall rolling flames and a glowing ember bed are complemented by a non-reflective glass front for uninterrupted visuals.

Designed with Gazco's innovative gas fire technology, this advanced fire produces an ample 5.2kW of heat at up to 86% efficiency.

Suitable for a huge range of interiors, the 500HL's shallow depth means that it can be conveniently fitted into an exterior wall with the internal leaf removed, ensuring a slim footprint and minimising building work. Once recessed into a cavity wall, this Slimline fire protrudes just 75mm into the room and has a choice of finishing options to suit your interior.

Although compact in design, these highly efficient fires have a generous heat output which is easily controlled with the Programmable Thermostatic remote control.
