Product Description

Gazco Studio Slimline fires offer all the distinctive hallmarks that are synonymous with the Gazco Studio range, with the added benefit of a slimmer firebox designed specifically for simple cavity wall installation.

The Slimline range has a wealth of styling options available including a wide frame selection, a choice of four lining options and the option to select from a choice of fuel effects, each allowing you to tailor your fire to your interior and provide a perfect warming heart for your home.

Whether you opt for the modern appeal of the white stone option, the mirror-like qualities of the glass bead fuel effects or for the ultimate 'real fire' look of the log-effect option with its hand-painted detailing and glowing ember bed, your Studio Slimline is a highly efficient fire designed for low running costs in a wide range of homes – and you don't even need a chimney!
