Product Description

The Kalfire GP115/55S is a 3-sided, built-in gas fire from the Kalfire GP range. The GP range offers an incredible system of gas burners integrated directly into ceramic logs, meaning the fireplace gives a high flame picture and an incredibly realistic campfire look. As with all GP fires from Kalfire the GP115/55S offers the option of the Natural Spark Generator (NSG), which recreates the look of real embers on a log fire as it injects tiny flammable particles into the flames. This fire also has the option of adding a flowing ember underbed LED lighting system. This gives the appearance of a real burning fire even when the flame is off.

- ☒ Featuring the log-integrated Prestige burner with the option to fit Natural Spark Generator and LEDs for a realistic flame effect

- ☒ 3cm mounting trim as standard

- ☒ Choice of Flat, Black Ceramic Glass or Design interiors

- ☒ Kalfire designs feature a streamlined frame, with no metal showing, to provide an optimal view of the flames

- ☒ The Easy Door System allows for simple cleaning of the fire

- ☒ Features 9 flame settings, including an ECO mode

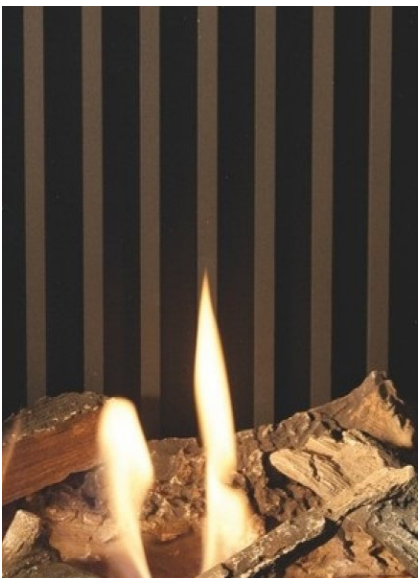

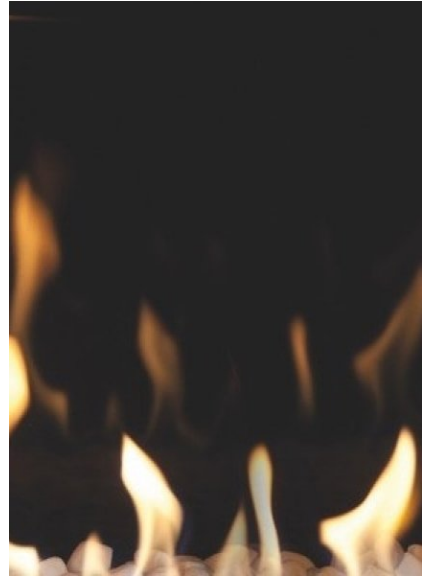

- ☒ I-Match remote control supplied with every model

- ☒ 1.5m flexible gas hose included as standard

- ☒ Glass Dimensions H 550mm x W 1150mm x W (side glass) 364mm

- ☒ Appliance Dimensions W 1306mm x D 550mm x H 1140-1500mm
