Thermostatic Eco Remote Control

App control on iOS and Android devices*

9 Quick Start Pre-sets (3 of which can be customised and saved)

Up to 2kW programmable heating

Ecodesign Energy Saving Features

Flames can be enjoyed with or without the heat

Authentic flame technology

Elevating the Onyx Fusion electric fire to the pinnacle of luxury is our state-of-the-art Authentic Flame Technology, a crystal-clear, immersive display of real flame imagery.

Multiple flame options are available, from a flickering fire with sparks and wisps of smoke above, through to an elegant, swaying flame reminiscent of a gas fire and more contemporary, vivid flame effects. With an array of customisable visuals, you can set the perfect ambience for your home and mood.

Multiple installation options

With its versatile installation options, you can tailor the Fusion 150RW electric fire to your home and style. It can be installed as a two-sided, three-sided, or inset fire, allowing seamless integration into any space.

With a slimmer depth than many other electric fires, the Onyx Fusion is particularly suitable for those where space may be limited, such as a media wall installation.
