

Wildfire HE950L

Wildfire

Product Description

The new HE950L is the perfect appliance to bring your fireplace to life. Just like the HE900, it's predecessor, this fire fits into your standard 16" x 22" builders opening, or precast flue. No building work, lintels, mess or costly installation.

The fabric of your home will remain intact but you will benefit from a landscape large format gas fire with beautifully crafted logs and colourful dancing flames. There are a number of different fireplace design options available, therefore you are sure to find one to compliment your home.
