

**Wildfire Ravel 1720**

Wildfire

## Product Description

The Ravel 1720 MW fire provides a wider version of the 1500MW suitable for the larger sized TV.

This balanced flue appliance will provide the heart to your media wall. With a massive heat output and an unrivalled flame picture, the fuel bed is intricately detailed to reveal the perfect log fire. A convection system forces cooler air through the side grills and up through side outlets at the top of the chimney breast, or through a stylish linear outlet above the television. The installation allows all the unsightly cables to be concealed whilst delivering a stylish and functional media wall to your home. Spot heating with a gas appliance is the most cost effective method to heat a room, allowing the central heating boiler to be turned off for longer periods...the Ravel 1720 Media Wall fire is a powerhouse of heat combined with ultra realism.

Features:

- ☐ Glass-fronted fire
- ☐ Natural Gas appliance
- ☐ Balanced flue
- ☐ Slide control
- ☐ Log fuel bed
- ☐ 4.4-6.5kW heat output

## Product Specification
