

Wildfire Thermes

Wildfire

Product Description

The Thermes Balanced Flue Gas Fire is now available in both manual and slide control.

The already successful Thermes BF gas fire from Wildfire can now be purchased with a slide control lever or the Ezi-Grip lever for those with less nimble fingers. For properties where no flue exists then the Thermes is the answer. Fitted on an outside wall this beautiful gas fire is available with an abundance of trim and fret options. No mains power is required to operate this appliance so it's OK in power cuts, the unit operates silently (unlike its' power-flue predecessors) and it is 86% net efficient.

The slide control takes the strain out of operating the gas fire – simply slide the lever downwards to ignite, then slide up to control flame picture and heat output. A gentle lift upwards will turn the gas fire off when you're done.

The Thermes is a powerful room sealed gas fire which uses no air from the room to operate, it takes combustion air from outside, and expels the products of combustion out through the same flue pipe.

Product Specification

Fuel	Natural Gas
Flue Type	Balanced
Glass Front	Standard Glass
Fuel Bed	Coals
Burners	One
Control	Manual, Slide
Fascia	Black, Black Nickel & Black, Brass, Brass & Black, Brushed Steel, Brushed Steel & Black, Chrome, Chrome & Black
Trim	Black, Black Nickel & Black, Brass, Brass & Black, Brushed Steel, Brushed Steel & Black, Chrome, Chrome & Black
