Product Description

The Da Vinci Mid-depth Gas Fire is now available in Four Limestone Illumia Suites, the Classically designed Giuliano, the Da Vinci, the more contemporary Monet, and the Distinction, all sure to be the centre of attention in any home. The fire provides highly realistic log ceramics, paired with the latest MM-44 Dual Burner Technology, delivering log burning flame integration set against a beautiful deep black reflective enamel interior, creating a stunning contrast finish.

These Suites are available as conventional flue models, suitable for installation into any standard brick chimney or pre-fabricated flue with a maximum heat output of 6.8kW. Each surround features controllable inset decorative halogen lights, and the fire features include our multi-functional remote control system with thermostatic and timer functions. Non-reflective glass provides an exceptionally clear vision of this most natural and highly vibrant living flame gas fire.
