Product Description

Element4 Sky Large Tunnel Bio Ethanol Fire - COMING SOON TO STORE
The Sky Large Tunnel Bio is a double-sided bioethanol fireplace, designed to create a seamless connection between two spaces. Its open design and realistic flames bring warmth and style to modern interiors without requiring a chimney or gas supply.
Tunnel design – A see-through fire that enhances two rooms with a shared flame view.
Ultra-realistic flames – Advanced burner technology ensures a natural, dynamic fire effect.
Efficient heating – No heat loss through a flue, keeping all warmth in the room.
Clean-burning fuel – Bioethanol produces zero smoke, soot, or ash, making maintenance simple.
Flexible installation – No gas or chimney required, allowing versatile placement options.
